Discussion:

Mayor McNamara handed out a revised agreement which had the legal description of the property that was not included on the original agreement.

Mayor Por-Tem Fenwick stated the agreement being brought forth separates the two tracts which are now the Food Park and the Okies Yardhouse and will allow them operate individually. This will allow the EDC to determine what will take place on the Food Truck area. Any plans brought forth by EDC will have to go through a Public Hearing before a vote can be made on what is being established on the lot.

Scott McDonald asked if the City owned both tracts? And they have been combined in a lease agreement with Sidewalk Brands? Mayor McNamara stated that yes on both. Scott McDonald asked if we have presented a letter of deficiency to cancel the contract why are we still voting to proceed with anything on these properties?

Mayor McNamara said that the lease is not terminated yet because there are two facets to the termination of the lease. Per the City Attorney: One is the notice of deficiencies which allows a fault provision of 60 days and also have a termination period.

This new agreement by separating the tracts allows the EDC/City/Plaza 10 to make changes to the property with any improvements that are agreed upon. This will take Sidewalk Brands, LLC out of the equation.

This will also allow safety due to the slick walkway outside the building.

Ronnie Richards stated that by adding this shade it will almost double the seating space since they will be able to have outside seating as well as inside.
